Anthony EPEE DIKOR is born in 1964 in Yaoundé (Cameroun), of Cameroonian parents. He left his native Cameroon for France in 1989. And there, in 1995, he obtained a master's degree in sociotechnical management of information and communication technologies from the Institut Universitaire Professionnalisé (IUP) of France, University Paris XIII Villetaneuse.

Anthony joined Capgemini in 1997. During a three-year long adventure, he worked as a project manager where he solved various operational problems. After that, in 2000, he took over as Operations Manager within Focal Desk. There, he acts as a guarantor of the good application of the process of technical follow-up of the collaborators and manages the implementation of the technical and commercial propositions. After that, the Dell IT company used its services in 2006 to take the management of outsourcing program, then that of partnerships Southern Europe.

2011, Anthony gives a more international turn to his career. Within CFAO Technologies, as Director of Managed

Services and Outsourcing, he manages the commercial operations of twenty-one countries in French-speaking Africa. In 2015, he joined AED Consulting, a specialist in IT service management, where he is Senior Consultant Workplace Managed Services. 🍷

2012 - He publishes Outsourcing of the workstation, Successful outsourcing

2011 - He joins CFAO Technologies

2006 - He receives a DELL SA Gold award

Anthony EPEE DIKOR est né en 1964 à Yaoundé (Cameroun), de parents camerounais. Il quitte son Cameroun natal pour la France en 1989. Et là, il obtient en 1995 le diplôme d'ingénieur-maître en management sociotechnique des technologies de l'information et de la communication de l'Institut Universitaire Professionnalisé (IUP) de l'Université Paris XIII Villetaneuse.

Anthony rejoint Capgemini en 1997. Pendant une aventure longue de trois ans, il occupe le poste de chef de projets où il solutionne différents problèmes opérationnels. Après cela, en 2000, il prend les fonctions de directeur opérationnel au sein de Focal Desk. Là, il intervient comme garant de la bonne application du processus de suivi technique des collaborateurs et gère la mise en œuvre des propositions techniques et commerciales. Par après, la société d'informatique Dell fait appel à ses services en 2006 pour prendre la direction de programme infogérance, puis celle des partenariats Europe du sud.

2011, Anthony donne un virage plus international à son

parcours. Au sein de CFAO Technologies, en tant que directeur des services managés et infogérance, il pilote les opérations commerciales de vingt-et-un pays d'Afrique francophone. 2015, il rejoint AED Consulting spécialiste du management des services IT, où il est Senior Consultant Workplace Managed Services. 🍷

2012 - Il publie Infogérance du poste de travail, Réussir l'externalisation

2011 - Il rejoint CFAO Technologies

2006 - Il reçoit un DELL SA Gold award
